

2.5GbE NAS TS-x53D Series

Boost teamwork with faster and smoother network performance

■ Upgrade your NAS to 2.5GbE Networking

TS-x53D Series models come with two 2.5GbE ports to accelerate file sharing across teams/devices or for gaming application storage.

■ Add extra functions with PCIe cards

PCIe expansion allows for installing a Multi-Gig 10GbE or 5GbE network card, or a QM2 card to add M.2 SSDs for caching.

■ Powerful transcoding and 4K HDMI output

The TS-x53D Series supports native 4K media playback with an HDMI 2.0 (4K @60Hz) output, and also supports real-time transcoding for streaming to multiple devices.

■ Combined backup & recovery solutions with HBS

HBS consolidates backup, restoration and synchronization tasks to greatly simplify transferring NAS-based data to local, remote and cloud storage spaces.
