

## Enrich your life with an all-in-one multimedia center

## Streaming your music with QNAP DLNA application

### AirPlay support

You can use the Qfile app on an iOS device to browse videos and photos stored on the Turbo NAS and play on the TV via AirPlay-enabled devices such as Apple TV.

### Media streaming and playing

You can use DLNA-compatible devices such as TV, HDTV, Smart TV sets, Sony® PS3, Microsoft® Xbox 360 and Hi-Fi system to enjoy HD quality videos stored on the Turbo NAS.

### Qmusic - Mobile music library

Through Qmusic connection and selection, you can now stream music stored on QNAP NAS, and take your music collection wherever you go.

Supports for multiple format integration : FLAC / APE / MP3 / OGG / WAV
