

Enrich your life with an all-in-one multimedia center

Streaming your music with QNAP DLNA application

AirPlay support

You can use the Qfile app on an iOS device to browse videos and photos stored on the Turbo NAS and play on the TV via AirPlay-enabled devices such as Apple TV.

Media streaming and playing

You can use DLNA-compatible devices such as TV, HDTV, Smart TV sets, Sony® PS3, Microsoft® Xbox 360 and Hi-Fi system to enjoy HD quality videos stored on the Turbo NAS.

Qmusic - Mobile music library

Through Qmusic connection and selection, you can now stream music stored on QNAP NAS, and take your music collection wherever you go.

Supports for multiple format integration : FLAC / APE / MP3 / OGG / WAV
