

QNAP

Flexible and Versatile

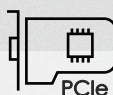

TS-X53DU Series

Quad-core 2.5GbE Rackmount NAS with PCIe expansion

Upgrade to 2.5GbE Networking

The TS-x53DU Series comes with two 2.5GbE ports to accelerate file sharing, backup tasks, virtualization, and everyday tasks.

Add extra NAS functionality with PCIe

PCIe expansion allows you to upgrade the core functions of the TS-x53DU by installing a 10/5/2.5GbE network card, USB 3.2 Gen 2 (10Gbps) card or a QWA-AC2600 wireless adapter.

Flexible and economical storage expansion

Expand the storage capacity of the TS-x53DU by using the unused storage of another QNAP NAS, or by connecting TR/TL series expansion enclosures.

Optimize your storage efficiency with Qtier and SSD caching

The TS-x53DU Series supports SSD caching to enhance IOPS performance, accelerate data access, and to improve all-round system efficiency.
