

QNAP

TS-x32PXU Series

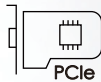

Quad-core Rackmount NAS with 2.5GbE & 10GbE connectivity

The quad-core TS-x32PXU series features two 10GbE SFP+ and two 2.5GbE RJ45 ports that enable businesses to deploy high-speed network environments. Supporting PCIe expansion, cloud backup, and cloud storage gateways, the TS-x32PXU series is perfect for IT staff to deploy high-performance hybrid-cloud environments to accelerate digital transformation.

**2.5GbE**

High-speed 10GbE and 2.5GbE connectivity

The 10GbE SFP+ port provides high bandwidth to enable intensive data transmission, while the 2.5GbE is suited for boosting low-latency file sharing, team collaboration, and everyday usage.

Add extra NAS functionality with PCIe

PCIe expansion allow you to upgrade the core functions of the TS-x32PXU by installing a network expansion card, QM2 Card, and USB 3.2 Gen 2 expansion card.

Combined backup & recovery solutions with HBS

Use HBS to back up or sync NAS files to remote or cloud storage space for reliable data backup and restoration.

Boxafe – Comprehensive Backup Solution for Businesses

By backing up emails, cloud drives, contacts, and calendars of Google™ G Suite and Microsoft 365®, Boxafe provides an added layer of protection for cloud-centric businesses and organizations.
