

10GbE

QSW 10GbE Managed Switches Solution

Build a high-speed network for the workplace or home

The QSW Managed Series is a high-speed networking solution for the workplace or home that provides Layer 2 management functions via a user-friendly web user interface. The QSW Managed Series is compatible with 10GbE and NBASE-T technologies, allowing you to take advantage of higher network speeds with existing Cat 5e and 6a cables. With high performance, user-friendly management, and a convenient desktop form factor, the QSW Managed Switch allows you to instantly upgrade to a hybrid high-speed network environment at a reasonable price while optimizing bandwidth and ensuring secure network maintenance.

Flexible deployment with multiple 10G SFP+ fiber and Gigabit ports

Faster speeds with existing cables using 10GBASE-T and NBASE-T

Layer 2 technologies for Secure and Flexible Management

Improve work productivity with a QNAP 10GbE NAS
