

QNAP

QTS-Linux Combo NAS

TS-x53A Series

High performance storage solution for business application and multitasking efficiency

QTS-Linux Combo NAS for centralized storage and IoT applications

The TS-x53A Series integrates two operating systems to host an ideal IoT platform with near-limitless containerized apps to empower developers.

Virtualization with full virtual machines and lightweight containers

Use a hybrid approach to virtualization with Virtualization Station and easily support multiple virtual machines, and further use Container Station to deploy LXC, and Docker® containerized instances.

Secure and centralized storage, backup and sharing

Centrally store, backup, share, and restore files while securing them with AES 256-bit volume-based data encryption for ensured data privacy.

Powerful transcoding and 4K HDMI output

The TS-x53A series supports 4K UHD output and 4K H.264 video transcoding for a high-quality audiovisual experience.

HDMI™
HIGH-DEFINITION MULTIMEDIA INTERFACE
