HIGH-DEFINITION MULTIMEDIA INTERFACE

ubuntu®

PCIe expansion to extend NAS functionality

The TS-x53BU Series comes with a PCIe slot, offering great flexibility for users to install a QM2 card, 10GbE network expansion card, or a wireless network card.

M.2/SATA SSD caching for extreme IOPS

The TS-x53BU Series fully supports SSD caching to optimize storage efficiency with Qtier™ technology.

QRM+ for central management of networked devices

With QRM+, IT staff can easily manage and monitor networked Windows®, Linux® and IPMI-compatible devices through a single platform.

Hardware-accelerated encryption boosts security without sacrificing performance

AES-NI accelerated encryption ensures the confidentiality of sensitive business data without sacrificing system performance.
