

QNAP

6 port Unmanaged Switch with 10GbE and 2.5GbE connectivity

QSW-2104 Series

Designed for small/home offices and professionals.

QSW-2104-2T

QSW-2104-2S

10GbE
2.5GbE

Flexible deployment with 10GbE and 2.5GbE connectivity

The QSW-2104 Series provides two 10GbE ports and four 2.5GbE ports for connecting a variety of devices with different bandwidth requirements.

Improve your network infrastructure with QNAP

Build high-speed network solutions to empower IOPS-demanding applications with QNAP switches, NAS, and network adapters.

Plug & Play

Plug & play. Auto-negotiation for optimal speed of connection.

No complex settings are required! The QSW-2104 Series supports auto-negotiation that optimizes the transfer speeds and performance of each connected device.

Automatic loop detection and blocking to ensure continuous network operation.

The QSW-2104 Series features network loop detection that automatically locks loops to ensure the network environment quickly resumes normal operations.
