

Designed for small/medium businesses

TVS-675

Affordable 2.5GbE NAS with M.2 SSD caching,
PCIe expansion, and 4K HDMI display

QTS
QuTS hero

Switch operating systems for optimal data integrity and reliability

Enjoy the award-winning app-driven QTS operating system for all your backup, virtualization, and multimedia tasks, or use the ZFS-based QuTS hero to ensure uncompromising protection and integrity for your business data.

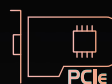

Streamline large file transfers and video editing with 2.5GbE

The TVS-675 comes with two 2.5GbE RJ45 ports that can deliver up to 5 Gbps (with Port Trunking) to supercharge everyday usage and empower bandwidth-hungry applications.

Obtain performance benefits from M.2 SSD caching

Install high-performance M.2 PCIe NVMe Gen 3 x1 SSDs or economical M.2 SATA 6Gb/s SSDs in the dedicated M.2 SSD slots and set up SSD caching to improve random I/O and reduce latency.

Extend NAS functionality with PCIe expandability

The TVS-675 comes with two PCIe Gen 3 slots that allow for installing 2.5/5/10GbE adapters, QM2 cards, or QXP storage expansion cards.
