

QMiro-201W

Next-Generation Tri-Band Wi-Fi Mesh
AC2200 SD-WAN Router

- Easily and securely connect to your company networks and multi-site VPN using the built-in QNAP SD-WAN solution, QuWAN.
- Supports Mesh Wi-Fi Handover for wide-range connectivity.
- Tri-Band Wi-Fi guarantees smooth and stable Wi-Fi connections via 2.4GHz, 5GHz and dedicated Mesh 5GHz frequencies.
- Control your Wi-Fi with a convenient mobile app, the QuRouter mobile app allows you to monitor and manage your home mesh network.
- Fanless design for near-silent operations.

The bottom left of the slide features a decorative graphic. It includes a black and white checkerboard pattern, a large blue semi-circle on the left, a red circle partially obscured by a black rectangle, and the QNAP logo in white. To the right of the logo are three horizontal teal bars with a slight gradient.
