# 1U TS-464eU for Qtier & SSD Cache

# Qtier (Auto-Tiering) combines performance & capacity

- QNAP NAS allows the combination of SSD and HDD RAID into the same pool and migrate data automatically based on accessing pattern.
- Provide higher capacity as SSDs can be used to store data

# QTS 5.0 + Linux kernel 5.10

To provide the best performance of Intel® Celeron® N5105/N5095, TS-x64eU is shipped with QTS 5.0, using the new Linux kernel 5.10. QTS 5.0 optimizes overall system performance and NVMe SSD over-provisioning & cache performance to enhance TS-x64eU functionality.

# Economical and flexible QNAP expansion enclosures for multi-platform usage

QNAP TR RAID and TL JBOD enclosures have many advantages in the market for NAS capacity expansion.

- **Bigger capacity**
  - 4 & 12-bay choices
  - NAS can support up to two expansion enclosures
- **Higher speed**
  - USB 3.2 Gen 2 10Gb/s
- **Better compatibility:**
  - QNAP External RAID Manager and JBOD Manager for monitoring the JBOD status
