QNAP

RAID 5 for optimized storage configuration

Build a secure RAID 5 array with three disks for optimized storage utilization and protection against one drive failing.

High-speed file sharing with 2.5GbE connectivity

Up to 5 Gbps transfer speeds can be achieved by setting port trunking with a built-in 2.5GbE ports.

Optimize image recognition and caching with TPU and PCIe expansion

Two M.2 PCIe Gen 3 slots enable cache acceleration or SSD storage pools for improved performance, or Edge TPU for accelerating AI image recognition.

Enjoy an amazing multimedia experience

The TS-364 features 4K H.264 hardware decoding, and real-time transcoding provides high-quality audiovisual experiences on any device.
