KoiBox-100W

All-in-one video conferencing and wireless presentation solution.

Powered by Celeron® dual-core processors and Intel AX201.

- Powered by a dual-core Tiger Lake Celeron processor.
- Supports Wi-Fi 6 and Bluetooth 5.2 using Intel AX201.
- Easy to setup. Connect to the Internet and the KoiBox-100W is ready to join or create a meeting.
- The KoiMeeter OS enables private P2P calls using QNAP KoiCode or IP for SIP connection.
- Supports various cloud meeting solutions and optimized for Teams, Zoom, and Skype.
- Meeting attendees can establish a wireless screen projection using Chrome or Firefox without needing additional software.
- Suitable for massive deployment with a reasonable budget.
