

TS-873AeU-RP

Short-depth Rackmount 2.5GbE NAS

QNAP

- Powered by a 4-core/8-thread AMD Ryzen™ V1500B 2.2GHz processor with up to 64GB DDR4 RAM.
- The TS-873AeU Series is a short-depth rackmount NAS, enabling flexible deployment and allowing for saved space to be used for ventilation and cabling.
- Features two 2.5GbE ports. Up to 5 Gbps transfer speeds can be achieved using port trunking.
- The TS-873AeU Series comes with two PCIe slots that support installing 10/25/40GbE adapters, QM2 cards, or Fibre Channel expansion cards.
- Install two M.2 SSDs in the dedicated M.2 SSD slots to enable SSD caching and Qtier for optimal system performance.
