

# TS-1886XU-RP

Cost-effective auto-tiered NAS solution for virtualization and data-intensive enterprise applications

The Qnap logo is displayed in a bold, white, sans-serif font. To the right of the logo, there are three horizontal, glowing blue and white bars of varying lengths, stacked vertically. The background of the slide features a dark blue and black checkered pattern on the left, transitioning into a solid dark blue on the right, with a large, stylized orange and red circular graphic element in the center.

- Intel® Xeon® D-1600 series processor, with up to 128 GB DDR4 ECC memory, and a redundant power supply, delivering server-grade performance
- SSD caching and auto-tiering enable 24/7 optimized storage efficiency
- Two 10GbE SFP+ SmartNIC ports with RDMA support accelerate large file sharing and intensive data transfer.
- PCIe expandability allows for 10GbE/ 25GbE/ 40GbE adapters, QM2 cards, Fibre Channel cards, or graphics cards to increase application potential.
- Supports storage for virtualization of VMware®, Citrix®, Microsoft® Hyper-V® and Windows Server® 2019, and hosts independent virtual machines and containerized apps.
