

Cost-effective 10GbE-ready QuTS hero NAS

TS-h1886XU-RP R2

Designed for virtualization and data-intensive enterprise applications

ECC memory forestalls data corruption to assure reliability

Supports up to 128 GB DDR4 ECC memory that can correct single-bit memory errors, demonstrating high reliability for crucial applications.

Dual 10GbE / 2.5GbE connectivity optimizes virtualization performance

Two 10GbE SFP+ SmartNIC ports with RDMA and four 2.5GbE ports support accelerate file sharing, intensive data transfer, and virtualization applications.

Empower tiered storage with a hybrid infrastructure

Twelve 3.5-inch HDD drive bays and six 2.5-inch SSD slots are provided, allowing for optimizing storage performance and utilization.

Expand NAS functionality with multiple PCIe slots

PCIe expandability allows for installing 10/25/40GbE adapters, QM2 cards, or Fibre Channel cards to increase application performance.
