

TVS-h1288X

High-speed Thunderbolt™ 3 and 10GbE NAS
for media collaboration and virtualisation

- Intel® Xeon® W-1250 6-core processor with up to 128 GB DDR4 ECC memory
- Install QXP-T32P Thunderbolt™ 3 PCIe expansion cards to attain Thunderbolt™ 3 connectivity
- Two 10GBASE-T and four 2.5GbE LAN ports accelerate virtualisation, intensive file access, large backup/restoration tasks, and media transfer.
- 4K media playback and real-time transcoding; directly output videos to an HDMI display (up to 4K @30Hz).
- ZFS supports inline data deduplication and compression, near-limitless snapshots, and real-time SnapSync

The QNAP logo is displayed in white, bold, sans-serif capital letters. To its right, there are three horizontal, slightly overlapping rectangular bars with a blue-to-white gradient.
