

QNAP

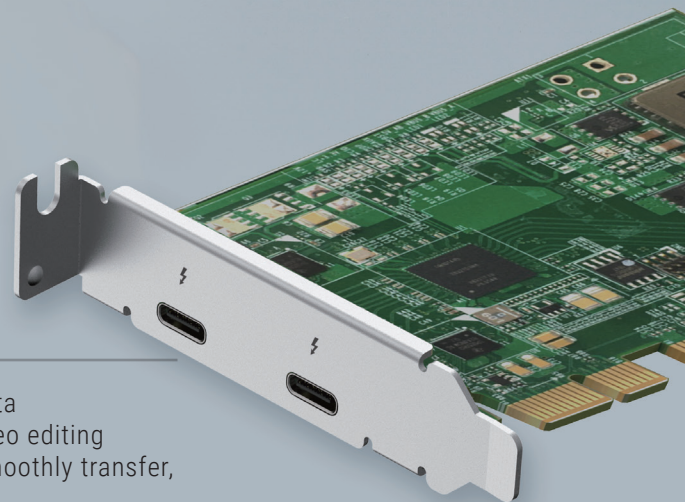

Streamline video editing and 4K workflows with feature-rich accessories

Transform your NAS into a Thunderbolt™ 3 NAS

QXP-T32P

The Thunderbolt™ 3 Expansion Card enables high-speed data transfer to accelerate everyday tasks and applications. Video editing studios in particular can greatly benefit by being able to smoothly transfer, display and edit 4K videos in real-time.

*Only TVS-h1288X / TVS-h1688X

Connect to 10GbE SFP+ networks over Thunderbolt™ 3

QNA-T310G1S

The QNA-T310G1S is a Thunderbolt™ 3 to 10GbE adapter that provides computers with Thunderbolt™ 3 ports an affordable method of connecting to 10GbE networks. With the QNA series adapter, users can benefit from Thunderbolt™ 3 and 10GbE dual connectivity, making file transfer faster while also improving work efficiency.
