QNAP®

TS-i410X

## Data storage & networking solutions for CNC machining

Heat resistant

Operates in -40°C ~ 70°C (-40°F ~ 158°F) environments and includes a heat-resistant Intel® Atom® x6425E processor.

VM/container

Run VMs or containers on the TS-i410X and use them like a PC by connecting an HDMI monitor and USB mouse.

Supports industrial-grade SSDs*

Store CAD files in SSD volumes to gain incredible performance benefits. Ensure the best performance and reliability by using industrial-grade SSDs and adjusting the disk warning to 85°C (185°F).

* Industrial-grade SSDs sold separately.

10GbE as standard

10GbE is natively supported by both the industrial NAS and switch. This combination allows you to tackle large CAD files with multiple PC/workstations.
