QNAP

First NAS for creators

TS-x62 Series

Budget-friendly multimedia NAS

Essential hardware for 2022 and beyond

With a powerful Intel dual-core processor, fast 2.5GbE Multi-Gig port, and HDMI 2.0 (4K @60Hz) output, the TS-x62 has everything you need to succeed.

Sync and access flexibly like a cloud

Use Qsync on your phone/laptop with Space-Saving Mode, allowing you to view NAS files from anywhere without pre-downloading them to your device.

Super-fast home connection with 10 GbE

Upgrade your TS-x62 with a 5/10 GbE network card to achieve even faster speeds in saving and backing up your creations.

M.2 SSD cache acceleration

When extra performance is needed, M.2 SSDs can be used in an SSD cache for faster access to photos, videos, and data!
