

Space-saving. 10GbE-enabled. Cost-effective.

QSW-M2106(P)R-2S2T

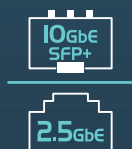

Upgrade your network speeds and workloads to 10Gb and 2.5Gb

Half-rackmount design maximizes usable space with flexible deployment.

Strengthen network connection and bandwidth-demanding applications, such as large file transfer, media streaming, and virtualization.

Boost productivity with high-speed 10GbE and 2.5GbE hybrid connectivity.

Web Managed

Easy to set up; hassle-free management with a user-friendly web GUI.

90W
PoE++

The QSW-M2106PR-2S2T supplies 90W PoE++ per port with a total power budget of 310 watts for high-powered devices.

Advanced Layer 2 management, including LACP, VLAN, RSTP, and more.
