QNAP®

intel ATOM

TS-1655

Powerful 2.5GbE hybrid storage with huge capacity

From 2.5GbE to 25GbE
Boost your applications with the native 2.5GbE and the optional 25GbE through PCIe expansion.

8-core power with up to 128 GB RAM
Intel® Atom® C5125 8-core 2.8 GHz processor with Intel® QAT; up to 128 GB memory with four UDIMM DDR4 slots (ECC memory also supported).

Long-term availability
Supported by QNAP for an extended period (up to 2027), ideal for business requiring NAS for lengthy projects.

Optimized hybrid storage
The SSD/HDD mix promises optimal performance and mass storage with lower total cost.
