

# TVS-h474

Highly-reliable ZFS-based storage with PCIe Gen 4 expandability for 10/25GbE connectivity, M.2 NVMe SSD caching and multi-threads processors for virtualization applications

**QNAP**

- Intel® Pentium® Gold G7400  
2-core/4-thread 3.7 GHz Processor
- Two M.2 PCIe slots, enabling SSD caching or SSD storage pools for improved performance, or other applications.
- 2.5GbE ports provide higher transmission speeds.
- Ultimate visual experience with Full HD HDMI output and real-time video transcoding.
