

TS-h1886XU-RP R2

Cost-effective 10GbE-ready ZFS storage for
virtualization and data-intensive enterprise applications

QNAP

- Intel® Xeon® D-1622 quad-core processor and up to 128 GB DDR4 ECC memory
- Connect to multiple expansion units and achieve PB-level scalability.
- Ensure data integrity and enhance data security with the ZFS-based QuTS hero operating system.
- Two 10GbE SFP+ SmartNIC ports with RDMA boost large file sharing and intensive data transfer.
