

Storage

Ready for the future

QNAP has set the industry standard for providing powerful future-proof on-premise storage and innovative software solutions. QNAP is relentless in its pursuit of solutions that help businesses modernize their data experience and adopt multi-cloud strategies in the cloud era.

TVS-hx74 Series

ZFS-based NAS QuTS hero edition

High-performance and highly-reliable Intel® Pentium™ and Core™ QuTS hero NAS series supports PCIe Gen 4 expandability and M.2 NVMe SSD caching for virtualization applications

- Intel® Core™ or Intel® Pentium® processor with AES-NI encryption acceleration
- Built-in M.2 PCIe, PCIe Gen 4 slots, HDMI, and 10GbE/2.5GbE ports
- Highly-reliable ZFS-based storage for virtualization applications and AI image recognition

TDS-h2489FU

NVMe All-Flash QuTS hero NAS

Dual-CPU (2 x 8 Cores & 2 x 16 Cores), 24-bay U.2 NVMe PCIe Gen 4 all-flash storage solution with ZFS reliability

- 3rd Gen Intel® Xeon® Scalable processors; excellent random read/write IOPS and low latency
- A pre-installed dual-port 25GbE SFP28 network adapter, four 2.5GbE ports, two PCIe Gen 4 ports, and two M.2 PCIe slots
- ZFS supports inline data deduplication and compression, near-limitless snapshots, real-time SnapSync, and SSD optimization technologies
