

# TVS-hx74T Series

World's First Thunderbolt 4 NAS Empowers Video Editing Workflows and Collaboration

## Absolute performance with the Intel Core processors

Powered by 12th Gen Intel Core i9 and i7 processors, it delivers remarkable processing power, ensuring collaborative 4K video editing across multiple workstations.

## Thunderbolt™ technology for ultra-high transmission speeds

The TVS-hx74T Series features two Thunderbolt™ 4 ports and works perfectly with Macs using Apple Silicon (such as M1 and M2 chips) and Intel® processors, and Windows PCs.

## PCIe expansion to meet growing workload and business requirements

Equipped with PCIe Gen 4 slots, the TVS-hx74T series, with 2.5 GbE as standard and upgradable to 25 GbE, guarantees further network expandability, making it an ideal solution for bandwidth-intensive tasks.

## Build in GPU for fast video transcoding

The built-in GPU accelerates transcoding for RAW video footage, allowing you, your team, and clients to quickly watch videos on their devices.
