

QXG-25G2SF-E810

Upgrade to enterprise-level networks with 25GbE

The QXG-25G2SF-E810 dual-port 25GbE SFP28 network expansion card comes with a PCIe Gen 4 interface. It can be installed in QNAP NAS, Windows®/Linux® workstations/servers, and is suitable for server rooms, virtualization applications, media streaming/real-time editing, and data backup/restore.

- Adopts Intel® Ethernet Controller E810-XXVAM2
- Supports PCIe 4.0 and is backward compatible with PCIe 3.0
- Up to 25Gbps transfer speeds (10/25Gbps supported)
- Enables SMB Multichannel to aggregate multiplied network connections up to 50Gbps
- Supports Network Offload with boosted network efficiency
