

TS-216G

Smart home NAS with quad-core power,
2.5GbE, and built-in NPU

Built-in NPU for AI Acceleration

The built-in NPU accelerates AI-powered image recognition, enabling you to organize photos by people, things, and places like Google Photos.

Built-in NPU for AI Acceleration

Supports USB One-Touch Copy which provides quick data transfer and backup between the NAS and USB devices.

High-performance and energy efficient

Powered by an ARM® quad-core processor and 4GB RAM, the TS-216G provides reliable read/write performance for running home and business applications.

2.5GbE ports accelerate intensive data transfer and backup

With 2.5 times the speed of standard ethernet, your file transfer and backup/restore are greatly accelerated with the TS-216G.
