QNAP

Quality
Network
Appliance
Provider

QNAP (Quality Network Appliance Provider) is devoted to providing comprehensive solutions in software development, hardware design and in-house manufacturing. Focusing on storage, networking and smart video innovations, QNAP now introduce a revolutionary Cloud NAS solution that joins our cutting-edge subscription-based software and diversified service channel ecosystem. QNAP envisions NAS as being more than simple storage and has created a cloud-based networking infrastructure for users to host and develop artificial intelligence analysis, edge computing and data integration on their QNAP solutions.

Year	Milestone
2004	QNAP founded.
2006	Integrated Multimedia Station and Download Station, QNAP takes the lead in multifunctional NAS.
2008	Added support for RAID level migration and capacity expansion.
2009	Added support for third-party cloud backup and virtualization integration services through iSCSI.
2011	Launched the high-end SMB Turbo NAS TS-x79 series with 10GbE LAN port.
2013	TS-469 Pro featured in PCWorld's 50 Best Tech Products of 2013
2014	Launched Virtualization Station.
2015	Launched the world's first Thunderbolt™ 2 Turbo vNAS TVS-871T.
2016	Launched the dual-controller Enterprise ZFS NAS series ES1640dc and ES1640dc v2.
2017	Launched the world's first Ryzen™-based NAS, the TS-x77 NAS series.

20 Anniversary 2004 - 2024 QNAP

2018
Launched the TS-251B, the first home/SOHO multimedia NAS with PCIe expandability and the QSW-1208-8C—the first 10GbE unmanaged switch.

2019
Launched a Cloud Storage Gateway that integrates private and public cloud storage to fulfill hybrid cloud applications.

2020
Launched the ZFS-based QuTS hero operating system, QuWAN SD-WAN solution, and QuTScloud, cloud NAS that can be deployed on both public and private clouds.

2021
Launched the flagship 24-bay U.2 NVMe all-flash NAS which supports installing a dual-port 100GbE adapter, the first 25GbE fiber managed switch, and the ADRA NDR solution for enhanced data protection. Launched the KoiBox-100W video conferencing solution for private/cloud meetings, featuring 4K wireless projection and local storage

2023
Introduced the world's first all flash E1.S / M.2 SSD hot-swappable Thunderbolt™ 4 NASbook, 100GbE switch, PB-scale storage solution with PCIe interface SATA JBOD storage enclosures, and QNAP's own cloud storage service – myQNAPcloud Storage.
