

# QNAP

# Security Center

Your security portal for NAS

The latest Security Center (available from QTS 5.2 / QuTS h5.2) adds "File Activity Monitoring" which proactively monitors your QNAP NAS status, detects security threats, and takes instant action against vulnerabilities.

## How Security Center with File Activity Monitoring Protects Your NAS

- Proactively monitors file activity
- Customizes your risk alerts
- Unusual file activity detection
- Quickly reacts to protect data
