

Enhance project efficiency with QNAP's reliable data protection solution

TVS-h874T

Thunderbolt™ 4 NAS. Designed for
creators and small studios

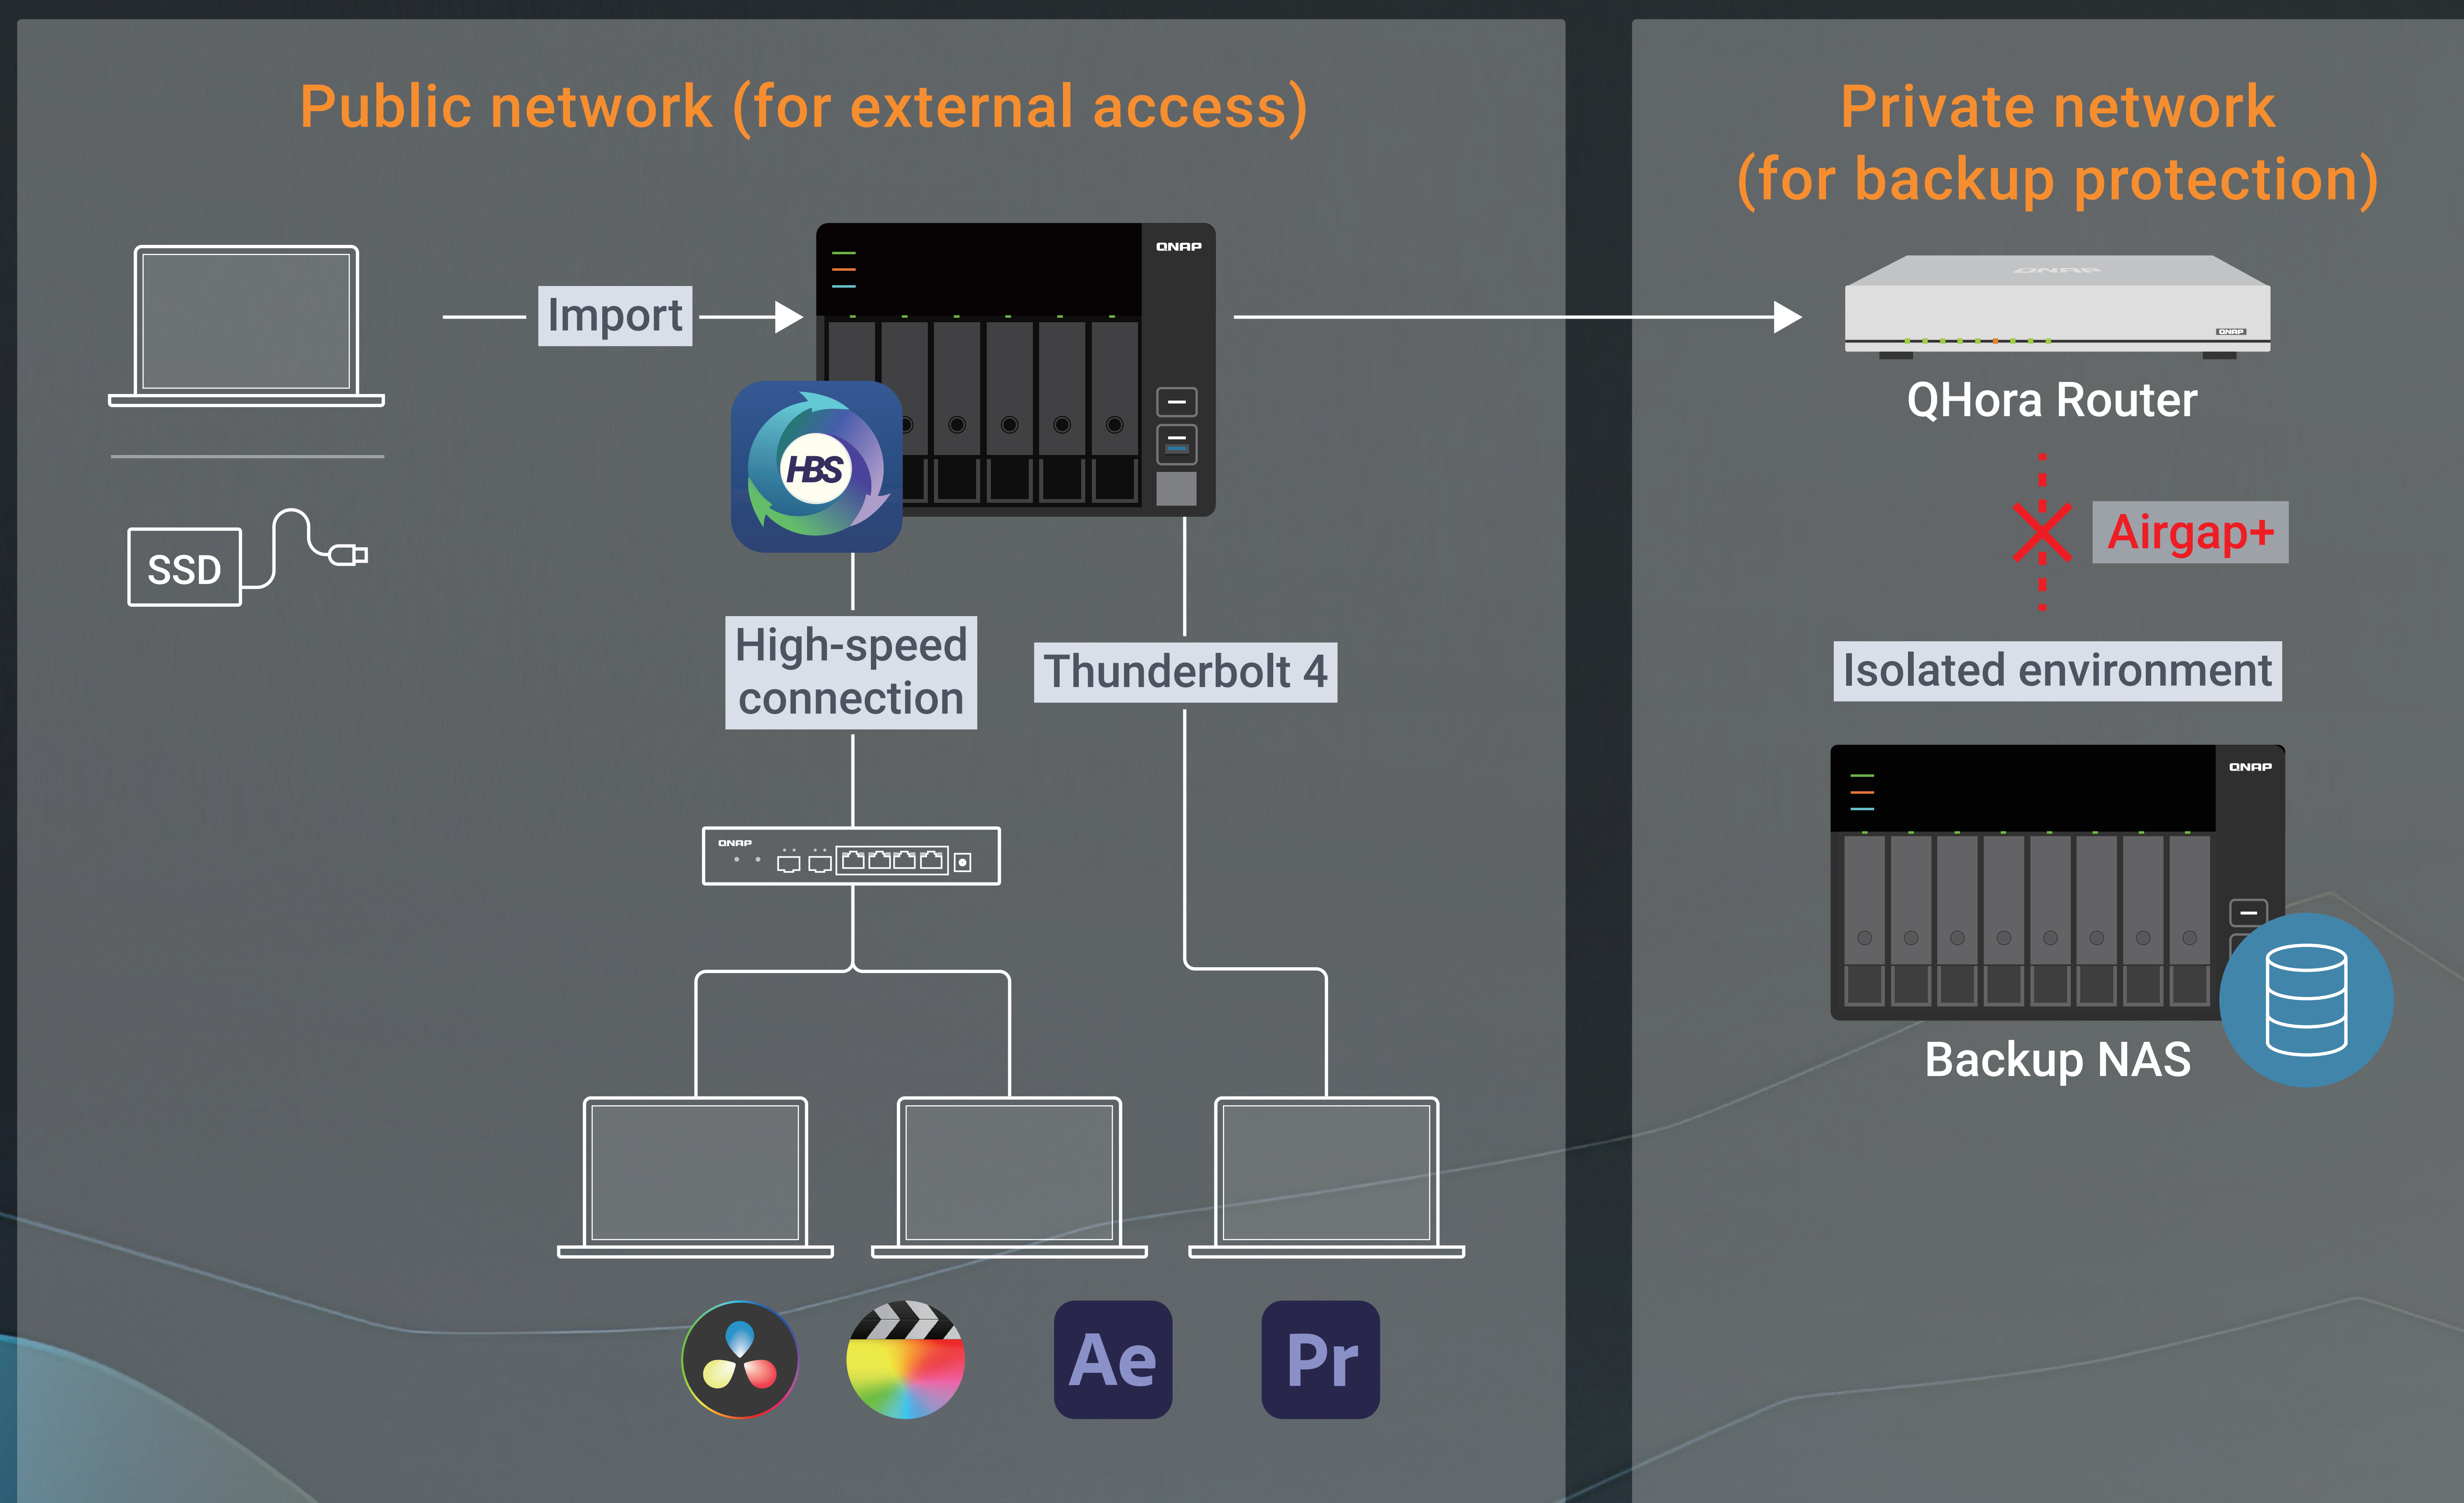

reddot winner 2024

The TVS-h874T, powered by an Intel® Core™ i9 16-core/24-thread processor with 64 GB memory, Thunderbolt 4, 2.5GbE ports, integrated graphics, and PCIe Gen 4 slots, is perfect for collaborative online video editing and sharing.

Airgap+

Secure NAS data with air-gapped network isolation for backups

QNAP's Airgap+ feature uses a logically isolated network to achieve efficient, convenient, and secure backups for enterprises and the media and entertainment (M&E) industry.
