

QNAP

TS-h1077AFU

Cost-efficient 10-bay All-Flash NAS.
Scalable to 25GbE and petabyte capacity.

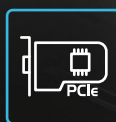

AMD
RYZEN
PRO

Uncompromising Power & Integrity

Driven by an 8-core/16-thread AMD Ryzen™ PRO CPU and up to 192GB DDR5 ECC memory for exceptional multi-tasking and rock-solid stability.

High-Speed Connectivity

Comes standard with dual 10GbE and dual 2.5GbE ports, easily expandable to 25GbE via dual PCIe Gen 4 x8 slots.

Optimized SSD Endurance

Features ZFS inline deduplication and QNAP's unique QSAL technology to maximize SSD lifespan, performance, and data security.

Zero Downtime Reliability

High-Availability (HA) support and redundant power supplies enable a dual-NAS failover cluster to keep mission-critical operations running continuously.
