

QSW-M7308R-4X

Enterprise 100GbE Solutions for High-Density Networking

- High-Density Ports: Features 4 x 100GbE and 8 x 25GbE interfaces.
- Precision L2 Control: User-friendly QSS for optimal network traffic management.
- AVoIP Optimized: Engineered for zero-latency, high-bandwidth media transmission.
- Airgap+ Security: Seamlessly supports isolated backups for robust data protection.
- Space-Efficient: Half-width design maximizes rack deployment scalability.
