ZFS Hybrid NAS for Accelerate Creative & Virtualization Workflows

- Next-Gen Power: Driven by AMD Ryzen™ 7000 and DDR5 to easily handle heavy workloads.
- Hybrid Efficiency: Combines ZFS data integrity with Qtier auto-tiering for maximized speed.
- Extreme Expansion: PCIe Gen 4 slots unlock massive acceleration via GPUs and 25GbE.
- Accelerate AI & Media: NFS over RDMA bypasses CPU bottlenecks for zero-latency 4K editing and AI processing.

10GbE
2.5GbE
