Redefine Your Enterprise Network with High-Speed 2.5GbE/10GbE Connectivity and Smart L2 Management

## Unified Access & Aggregation: Optimized Backbone

Efficiently consolidate traffic from 2.5GbE edge devices and uplink to a 10GbE core network, eliminating bottlenecks across layers.

## Flexible 2.5GbE/10GbE Ports: Maximum Speed with Zero Rewiring

Instantly multiply bandwidth over existing Cat 5e cables. The versatile 2.5GbE/10GbE mix eliminates costly infrastructure overhauls.

## Intuitive L2 Web GUI: Simplify IT and Maximize Efficiency

Easily deploy advanced L2 features (VLAN, QoS, IGMP Snooping) via an intuitive Web GUI, minimizing learning curves and IT overhead.

## High-Density 24/26-Port Design & PoE: Scale Without Limits

High-density ports seamlessly connect Wi-Fi 6 APs, servers, and NAS, while select PoE models omit PoE support.
