

Powering Your Data Future

High-Performance, Secure, and Comprehensive Data Protection

All-Flash Performance

PCIe Gen4/5 & NVMe optimized for ultimate IOPS.

Ransomware Protection

Immutable snapshots and WORM guarantee data integrity.

Petabyte-Scale Scalability

High Availability (HA) architecture for massive data growth.

Hybrid Cloud Ready

Seamless edge-to-cloud integration for flexible disaster recovery.

Elevate Your Network: Speed Meets Security

Empowering the 25G/100G Era with Zero-Trust Security

25G/100G Ultra-Speed

Zero-latency backbone for virtualization and high-density apps.

ADRA Threat Defense

Switch-based NDR to stop ransomware and lateral movement.

Advanced Switches

High-bandwidth, low-latency solutions for High-Performance Computing.

SD-WAN & Zero Trust

Enterprise firewalls and secure VPNs for strict access control.
