

7 Reasons Why you need a NAS

Compact Power (Tower Series)

Budget-Friendly & Compact —
Perfect for Small Offices

Built to Scale (Rackmount Series)

4 to 24 Bays —
Effortless Management in Any Cabinet

Room to Grow (Expansion Unit)

2 to 60 Bays —
Scale Seamlessly as Your Business Grows

1 Flexible & Secure Storage That Grows With You

Scale your storage anytime with RAID data protection — no limits, no worries.

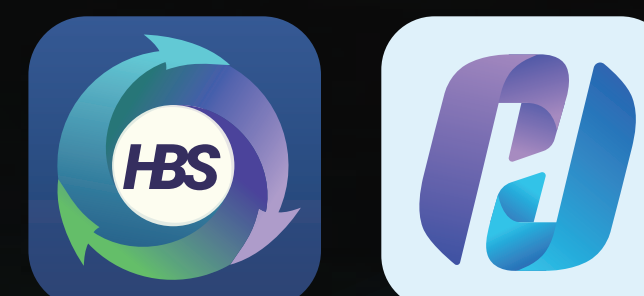

2 Build Your Own Private Cloud — Skip the Subscription Fee

Access your files anywhere with myQNAPcloud, or integrate seamlessly into your existing VPN.

3 Zero License Fees for Advance Security

Built-in apps give you offsite backup, immutable backups, and high availability — all included.

4 All-Round Data Protection

Snapshot, ransomware detection, and malware protection keep your local data safe 24/7.

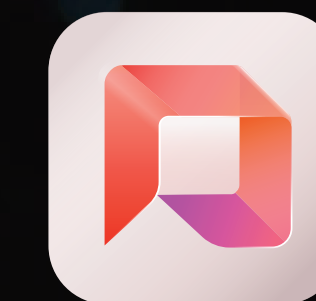

5 One NAS, All Your Clouds

Mount public cloud storage directly to your NAS for centralized management — the best of security and convenience.

6 Surveillance Made Simple

Turn your NAS into a full security system with QVR Elite and compatible cameras — no extra server needed.

7 Up to 5-Year Warranty, Even on Entry-Level Model

Extend protection and peace of mind — no matter which model you choose.

* Features such as immutable backup, license-free applications, and cloud integration availability vary by model series. Ask us which model fits your needs.
* Extended Warranty needs to be purchased within 9 months after purchase
