

TS-432XeU

Short-Depth 10GbE NAS - Engineered for Flexible Business

- Maximize Space: Only 29.2 cm deep, fitting seamlessly into compact and wall-mount cabinets.
- Accelerate Transfers: Built-in 10GbE SFP+ and dual 2.5GbE ports for heavy data workloads.
- Optimize Bandwidth: Support Port Trunking and SMB Multichannel for smoother data transmission.
- Boost Performance: Driven by an energy-efficient Annapurna Labs quad-core processor.
- Scale on Demand: Easily connect QNAP JBOD expansion units via four USB 3.2 Gen 1 ports.
