# ES2486AFdc

## The First Active-Active NVMe All-Flash Architecture NAS

- **Active-Active High Availability:** Ensures near-zero downtime for mission-critical services.
- **All-Flash Extreme Performance:** Breaks bottlenecks to deliver million-level IOPS.
- **Intel® Xeon® D Processors:** Dual-controller multi-core power for enterprise workloads.
- **24 x U.2/U.3 NVMe:** PCIe Gen4 direct slots fully supporting dual-port SSDs.
- **4 x 10GbE SFP+:** High-bandwidth connectivity for massive data throughput.
- **1PB+ Logical Capacity:** Maximizes All-Flash storage efficiency via ZFS inline data reduction and compression.

QNAP®
