

QNAP

Optimal storage efficiency

Ongoing optimization of data across high-performance SSD, SAS drives and high-capacity SATA disks based on access frequency.

Qtier™ Technology

Constant optimization of data across storage tiers

Qtier on-demand

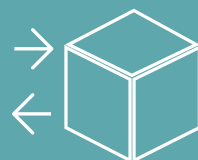

You can configure Qtier at any stage without having to activate it when you create a storage pool.

TVS-ECx80U-SAS Series

TVS-x73e Series

IO-aware Qtier

SSD tier has a cache-like reserved space to handle burst IO in real time.
