Smaller footprint for bigger opportunities

The TS-431XeU is a short-depth rackmount NAS that can be flexibly deployed, and allows for saved space to be used for ventilation or cabling.

Snapshot support for higher NAS data protection

The TS-431XeU supports block-based snapshots which provide an efficient data backup and recovery solution.

High-speed 10GbE connectivity

10GbE boosts data-demanding applications and helps businesses meet increasing demands for bandwidth-intensive file transmission and backup tasks.

SSD caching for extreme IOPS

The TS-431XeU supports SSD caching to enhance IOPS performance, accelerate data access, and improve all-round system efficiency.
