

QNAP

Budget-friendly RAID 5 NAS

QNAP TS-328

Entry-level storage solution with high data protection

REALTEK

Build a secure
RAID 5 with
just **three disks**

RAID 5 for optimized storage capacity

Build a RAID 5 array on the TS-328 to store data with increased disk performance and protection against one disk failing.

Snapshot support for higher NAS data protection

The TS-328 supports block-based snapshots that can assist users in recovering their data in the event of accidental deletion/modification or ransomware attack.

Enjoy an amazing multimedia experience

The TS-328 supports hardware decoding (H.264/H.265) and real-time transcoding to provide a smooth multimedia experience.

Combined backup & recovery solutions with Hybrid Backup Sync

Hybrid Backup Sync consolidates backup, restoration, and synchronization tasks to greatly simplify transferring data to local, remote, and cloud storage spaces.
