## High-speed 10GbE connectivity

Two built-in 10GbE SFP+ ports deliver high speed for mission-critical applications such as databases and virtual machine storage.

## PCIe expansion to extend NAS functionality

The TS-x32XU Series comes with a PCI Express (PCIe) 2.0 x2 slot (x4 length) to install additional 10GBASE-T ports and/or M.2 SSDs.

## Snapshot support for higher NAS data protection

The TS-x32XU Series supports block-based snapshots to assist users in recovering their data in the event of accidental deletion/modification or ransomware attack.

## Optimize storage efficiency with Qtier and SSD caching

The TS-x32XU Series supports SSD caching and Qtier auto-tiering for optimizing storage utilization.
