

# QNAP

## Budget-friendly RAID 5 NAS

# TS-332X

### Supports RAID 5 for balanced performance and data redundancy

#### RAID 5 for optimized storage configuration

RAID 5 support provides the TS-332X with a storage configuration that increases storage performance, optimizes storage utilization, and protects against one disk failing.

#### Optimize your storage efficiency with Qtier and SSD caching

There are three slots for installing M.2 SSDs (sold separately) to enable SSD caching and Qtier for optimal system performance.

#### Enjoy optimized SSD performance with extra over-provisioning

The TS-332X supports software-defined SSD RAID extra over-provisioning, helping you to obtain enterprise-grade SSD performance and endurance from consumer-grade SSDs.

#### Built-in 10GbE connectivity for high-speed file sharing

With a built in 10GbE SFP+ port, the TS-332X natively supports connecting to 10GbE high-speed networks and accelerating massive file sharing and bandwidth-intensive applications.
