Absolute performance with AMD Ryzen™

At the heart of the TS-x77XU Series is AMD's Ryzen processor family, delivering high core/thread counts and processing capabilities to meet stringent multitasking requirements.

Extend NAS functionality with PCIe slot

TS-x77XU Series features PCIe slot that allows for installing 10GbE/40GbE adapters, QM2 Card, USB 3.1 Gen 2 (10Gbps) cards, or wireless network cards.

Built-in 10GbE connectivity for high-speed file sharing

Two 10GbE SFP+ ports provide higher bandwidth to empower applications like virtualization, 4K video editing and file sharing.

Install a graphics card for GPU-accelerated computing

Supports AMD Radeon™ and NVIDIA® graphics cards for video processing or GPU-passthrough to virtual machines.
