Powerful 10GbE & Thunderbolt™ 3 NAS

TVS-x72XT Series

Ideal for collaborative 4K media editing platform

Extraordinary performance with Intel 8th Gen. Processors and Thunderbolt™ 3

At the heart of the TVS-x72XT Series is an Intel 8th Gen. Processor with Thunderbolt™ 3 connectivity, delivering incredible transmission speeds for real-time 4K video transfer and editing.

PCIe expandability for a graphics card and other PCIe devices

The TVS-x72XT Series comes with two PCIe slots that allow users to install a QM2 card, USB 3.1 10Gbps card, entry-level graphics card, or a wireless network card.

Built-in 10GbE connectivity for high-speed file sharing

5-speed 10GBASE-T RJ45 connectivity accelerates virtualization applications and file sharing across teams and devices.

Optimal performance with M.2 SSD caching

The TVS-x72XT fully supports SSD caching to optimize storage efficiency with Qtier™ technology.
