

Server-grade Enterprise NAS TS-x83XU Series

Designed for High Performance and Reliability

Reliable performance with ECC memory

The TS-x83XU Series uses DDR4 ECC memory which is capable of correcting single-bit memory errors to ensure the integrity of crucial applications.

Dual 10GbE connectivity optimizes virtualization performance

Two 10GbE SFP+ SmartNIC ports with iSER support accelerate large file sharing, intensive data transfer, and VMware virtualization applications.

Optimized storage efficiency with SSD caching and SSD Over-provisioning

Software-defined SSD extra over-provisioning mitigates write amplification and optimizes SSD random write speeds for IOPS-demanding applications.

Expand NAS functionality with multiple PCIe slots

Install a graphics card or 40GbE/ 25GbE/ 10GbE adapters to increase the application potential of the NAS.
