QNAP

QVR Pro

Your NAS is also a surveillance solution

Open Event Platform

The API can connect QVR Pro with a wide range of IoT applications. These resources can be easily shared to make the surveillance system secure and more intelligent.

Dedicated Storage

QVR Pro has an independent recording space from QTS, ensuring dedicated storage space, high-quality recordings, and no performance interference.

Expandable Storage Capacity

You can easily expand your storage capacity by simply connecting expansion enclosures to your NAS or by using QNAP's VJBOD to use the unused storage of another QNAP NAS.
