

Lightweight and powerful entry-level NAS

TS-228A

Ideal for private cloud & home entertainment

The TS-228A provides you with snapshot protection at an affordable price, allowing you to protect files and data from accidental deletion and malware attacks.

Hybrid Backup Sync gives you the freedom to set and combine multiple auto backup/sync functions to keep important data safe and to ensure peace of mind.

The TS-228A supports the popular 360 degree panorama photo/video recording format, and QVHelper assists in a stream and decode multimedia files.

TS-228A acts as a file storage platform to automatically synchronize files across devices for sharing and collaboration.
